

SDG 17: Partnerships for the Goals

The University of Tabuk is dedicated to advancing sustainable development by fostering strong partnerships at local, national, and international levels. Aligned with SDG 17: Partnerships for the Goals, the university actively collaborates with a diverse range of stakeholders, including governmental agencies, industry partners, and educational institutions. These partnerships enable the university to exchange knowledge, mobilize resources, and enhance capacities, all with the aim of addressing complex global challenges.

17.1 Research into partnership for the goals

The University of Tabuk is actively contributing to research that supports all 17 Sustainable Development Goals (SDGs). By publishing studies on topics like poverty, health, education, and the environment, the university helps tackle global challenges through knowledge and innovation. The number of publications reflects the university's broad commitment to sustainable development and its role in advancing solutions that align with the United Nations' 2030 Agenda. Through collaboration and a focus on practical outcomes, the university's research supports positive change for a better future.

17.2 Relationships to support the goals

17.2.1 Relationships with regional NGOs and government for SDG policy

The University of Tabuk actively engages in SDG policy development by collaborating with national and regional organizations. Through partnerships, the university contributes to identifying challenges, developing policies, and monitoring interventions that align with sustainable development goals. Key initiatives include partnerships with government and non-government organizations, research support, and participation in conferences and forums. The university's commitment to these partnerships underscores its role in shaping policies that advance sustainable development at both national and regional levels.

17.2.2 Cross sectoral dialogue about SDGs

The University of Tabuk actively initiates and participates in cross-sectoral dialogues on the Sustainable Development Goals (SDGs) through various conferences and forums. These events, which involve government bodies and non-governmental organizations, provide a platform for discussing strategies, sharing insights, and fostering collaborations aimed at achieving the SDGs. By engaging in these dialogues, the university strengthens its role in promoting sustainable development and addressing regional and global challenges.

17.2.3 International collaboration data gathering for SDG

The University of Tabuk actively engages in national and international collaborations to gather and measure data for the Sustainable Development Goals (SDGs). Through partnerships and joint projects with global organizations, the university contributes to the development of data-driven insights that support sustainable development initiatives. These collaborations enable the university to enhance its research capabilities and contribute to global efforts in monitoring progress towards the SDGs.

17.2.4 Collaboration for SDG best practice

Through international collaborations and research, the University of Tabuk reviews various approaches and develops best practices for addressing the Sustainable Development Goals (SDGs). By working with global partners, the university contributes to comparative studies and shares insights that promote effective strategies for tackling sustainability challenges. These efforts enhance the university's role in advancing international standards and fostering innovative solutions aligned with the SDGs.

17.2.5 Collaboration with NGOs for SDGs

The University of Tabuk collaborates with NGOs to support the Sustainable Development Goals (SDGs) through student volunteering, research programs, and the development of educational resources. These partnerships provide students with opportunities to engage in community service, contribute to research efforts, and create learning materials that promote sustainability. By working closely with NGOs, the university strengthens its commitment to tackling global challenges and empowering students to make a positive impact through education and service.

17.4 Education for the SDGs

17.4.1 Education for SDGs commitment to meaningful education

The University of Tabuk is committed to providing meaningful education on the Sustainable Development Goals (SDGs) that is relevant and applicable to all students across various disciplines. Programs offered by faculties such as Science, Computers and Information Technology, Tourism and Hospitality, Applied Medical Sciences, Pharmacy, and Medicine incorporate sustainability concepts into their curricula. This holistic approach ensures that students are equipped with the knowledge and skills to contribute effectively to global sustainability efforts, fostering a culture of awareness and action around the SDGs within the university community.

17.4.2 Education for SDGs: specific courses on sustainability

The University of Tabuk offers dedicated courses that focus on sustainability and the Sustainable Development Goals (SDGs) through various full degrees and electives. Notable programs include a Master's degree in Biodiversity, which equips students with advanced knowledge in ecological conservation, and an Associate Diploma in Wildlife Conservation and Protection. Additionally, the university provides an Intermediate Diploma in Reserve Management and multiple diplomas in Environmental Studies, Plant Ecology, and Environmental Protection and Natural Resources. These programs are designed to prepare students for careers in sustainability and environmental management, fostering a deep understanding of the challenges and solutions related to the SDGs.
