About the deanship

The Deanship of Student Affairs was established in 1424 AH to be one of the most prominent destinations at the University of Tabuk in enriching the student's university journey within a stimulating student environment that enables the student to be a participant, responsible, and socially influential through creative activities, leadership programs, professional certificates, career guidance services, and employment services.

Vision

To be a pioneering power in enhancing student activities, services, and skills.

the message

Enabling students to lead student activities and community services, improving and developing the student services environment, and improving student skills.

Mission

To empower students to lead student activities and community services, improve and develop the student services environment, and enhance student skills.

Dean's speech

Praise be to God, Lord of the Worlds, and prayers and peace be upon the most honorable prophets and messengers.

Contemporary civilizational concepts must be present in our minds in sober and wonderful ways. The most important concept circulating today is the one that deals with sustainability in its branches and ways. The most important thing in sustainability is creating a generation that lives by its productive values and lives by its upright morals. It becomes a generation that creates the idea and refines the path.

One of the most important aspects adopted by the Kingdom of Saudi Arabia's Vision 2030 through the Human Capabilities Program is the reformulation of skills and their concepts, and how the youth group can benefit from the vitality of age, the brilliance of the mind, and the light of knowledge.

We at the Deanship of Student Affairs spare no effort in creating an environment for students that enables them to acquire leadership skills and instills responsibility in their human actions, so that they become involved with their colleagues in an enjoyable activity and an inspiring idea, and then spread their influences, contributing to the development of their countries with all determination and sincerity.

Students of the University of Tabuk: The Deanship of Student Affairs is your deanship that was established in order to accept your mistakes and correct them, and to increase the solidity of your thinking and produce them. To create a student environment through an enjoyable journey. (via an enriching experience).

All praise is due to Allah, the Lord of the Worlds, and peace and blessings be upon the most noble of the prophets and messengers.

& With that being said;

Contemporary civilizational concepts should be firmly and creatively embedded in our minds. The most important concept currently circulating is sustainability, encompassing its various branches and means. The first and foremost priority for sustainability is to build a generation that lives by its fruitful values and follows its sound morals, becoming a generation that creates an idea, and paves the way for it to flourish.

One of the most important aspects of Saudi Arabia's Vision 2030, through the Human Capabilities Program, is to reframe their skills and concepts, and to explore how the youth can benefit from the vitality of their age, the brilliance of their minds, and the light of knowledge.

At the Deanship of Student Affairs, we spare no effort in creating an environment that helps enable students to acquire leadership skills and instills responsibility in their human behavior, so they become active participants with their colleagues & contributors in creating an enjoyable atmosphere and inspiring ideas. And by achieving that, they spread their impact and contribute to the development of their homeland with full determination and dedication.

To the Students of the University of Tabuk: The Deanship of Student Affairs is your debt. It is established to accept your mistakes, to correct them. And to strengthen your thinking and refine it, in order to foster an environment that aids you with an enriching & an enjoyable experience.
